

BITS PILANI | DRDO AI/ML Engineer Intern | Founder's Office Tori Ate

B.Tech student at BITS Pilani. DRDO ML intern contributing to Major projects, Random Forest and Extreme Gradient Boosting XGB. Selected for Y Combinator Startup School-in top out of 25,000+ applicants across India and NATIONAL level winner of SIH, Smart India Hackathon. Senior Associate @ BITS Pilani Consulting Club – live client consulting projects, market research & go-to-market (GTM) strategy. High-ownership, cross-functional founder's office Associate building production AI products – Tori, an LLM-powered multi-agent WhatsApp AI assistant and VISION, a real-time computer-vision human-computer interaction (HCI) system. Hands-on with Python, LLM, prompt engineering, agentic AI (Claude, tool calling, MCP). As a founder's office Associate, owned the full product lifecycle – user research, PRDs & product roadmap, KPI tracking, GTM & partner onboarding across 3 Major Hi-Tech cities – and ran day-to-day business operations cross-functionally. Seeking Founder's Office, AI/ML Engineer, Software Engineer, Agentic AI, Product Management, Business Operations / Strategy, Consulting internship roles.

EDUCATION

BITS PILANI, Pilani Campus

B.Tech (Bachelor of Technology) — Electronics & Communication

- **Core Domains:** Artificial Intelligence, Machine Learning, Software Engineering, Product Development
- **Technical Focus:** Python, Deep Learning, Natural Language Processing (NLP), Computer Vision.
- **AI & Advanced Workflows:** Agentic AI Systems and LLM
- **Relevant Coursework:** Data Structures & Algorithms, Probability & Statistics, Linear Algebra, Object-Oriented Programming, Database Systems, Operations Research.

ACHIEVEMENTS

- Stood in the **TOP out of 25,000+ Applicants across Entire India** for YC - Y COMBINATOR [World's TOP-MOST PRESTIGIOUS US GLOBAL AMERICAN Startup Accelerator]
- **Won SIH- SMART INDIA HACKATHON AT - NATIONAL LEVEL**, organised by Govt of India - contributing to a major Impactful Idea & Project.
- Secured top ranks in BITSAT, JEE Mains, & JEE Advanced, placing within the TOP 1 PERCENTILE nationwide.
- Won **INSPIRE AWARD TWICE** at NATIONAL level- organised by Govt of India
- Developed & scaled an innovative Healthcare platform across Bangalore, Hyderabad, & Jaipur; selected for Y Combinator (YC) and recognized at multiple National-level competitions.
- Secured 4th place Nationwide in BITS Pilani's flagship Ignite & Conquest for pitching high-impact innovative project.
- Pursuing Btech from 1 of India's BEST engineering COLLEGE - BITS PILANI

WORK EXPERIENCE

DRDO (Defence Research & Development Organisation), Chandigarh — Machine Learning Research Intern

📅 Jul – Aug 2026

- Developed a machine-learning Landslide Susceptibility Mapping (LSM) pipeline for Sikkim — integrated landslide inventory data (NASA Global Landslide Catalog, ISRO Bhuvan Landslide Atlas, GSI) with terrain & satellite-derived causative factors
- Processed DEM data (USGS EarthExplorer) in QGIS to derive slope, aspect & curvature; computed NDVI & LULC (land use / land cover) from Landsat 8/9 & Sentinel-2 imagery
- Built a labelled geospatial training dataset — sampled landslide & stable-area points; extracted multi-layer raster values to CSV (class balancing, feature engineering)
- Trained & evaluated Random Forest & XGBoost classifiers (Python, scikit-learn, pandas) to predict landslide-prone zones — ROC-AUC, confusion matrix & feature-importance analysis
- Tech Stack: Python, scikit-learn, pandas, Random Forest, XGBoost, QGIS, GIS & Geospatial Data Science, Remote Sensing, DEM/Terrain Analysis, NDVI, LULC, Natural Hazard Modelling

TORI ATE Inc.- Founder's Office Associate [Click here to view]

📅 [Click to view the Demo video]

- Developed Tori—the world's 1st AI AGENT, fastest & 10-SECOND way to NETWORKING & BOOKING
- Engineered the LLM-powered conversational AI agent: natural-language intent understanding (NLP), prompt engineering, tool / function calling for scheduling — completes an end-to-end booking inside WhatsApp in just 4 messages
- Automated Whatsapp Reminders to Doctors, Patients & other businesses reducing no shows by 45% via the Meta cloud API
- REDUCED OPERATIONAL FRICTION by 95%
- SCALED widely across BANGALORE, HYDERABAD, JAIPUR - Added Multiple HOSPITALS, HEALTHCARE CENTRES, PHYSIOTHERAPY, MENTAL HEALTH
- Product ownership (0-to-1): As founder, owned the product roadmap, PRDs / user stories, user research & customer feedback loops and go-to-market & partner onboarding across Bangalore, Hyderabad & Jaipur (hospitals, clinics) – tracking product KPIs (booking completion, no-show rate, partner activation) to prioritise features and drive data-driven iteration
- Business operations: Ran day-to-day operations cross-functionally – partner / vendor coordination, stakeholder management with clinic admins, doctors & restaurant owners, and process improvement by replacing manual scheduling with automated WhatsApp workflows
- Tech Stack- LLM APIs (OpenAI / Anthropic), LangChain, Agentic AI & Prompt Engineering, Tool Calling, Meta Cloud API, JavaScript, HTML, CSS; Product Development, Operations, Gen AI

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C
- **LLMs & Generative AI:** LLM APIs (OpenAI, Anthropic Claude, Gemini), prompt engineering, Retrieval-Augmented Generation (RAG), embeddings & vector databases, LLM evaluation
- **Agentic AI:** AI agents & multi-agent systems, LangChain, Model Context Protocol (MCP), agent orchestration, workflow automation (n8n, Zapier)
- **Machine Learning & Deep Learning:** NumPy, Pandas, scikit-learn, OpenCV, MediaPipe; Random Forest & Extreme Gradient Boosting (XGBoost) ensemble models, feature engineering, model training, benchmarking & evaluation; GIS & geospatial analysis (QGIS, DEM / terrain analysis, raster & vector data), remote sensing (Landsat 8/9, Sentinel-2, NDVI, LULC), natural hazard modelling
- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, responsive design, UI/UX fundamentals, full-stack development
- **AI-Assisted Development:** Claude Code, Cursor (agentic coding workflows)
- **Engineering Practices:** SDLC, performance optimization, rapid prototyping, technical documentation, stakeholder communication, ownership, startup & product development
- **Product Management:** product strategy & product roadmap, PRDs / product specs, user stories & acceptance criteria, feature prioritization, **user research & customer interviews**, competitive analysis & market research, **product metrics / KPIs** (activation, retention, adoption), A/B testing & experimentation, **go-to-market (GTM) & product launches**, 0-to-1 product building, wireframing & prototyping (Figma), product analytics, product development lifecycle, data-driven decision making, user-centric product thinking
- **Operations, Strategy & Business:** business operations, process improvement & process mapping (SOPs), business-process / workflow automation, project management, **stakeholder management**, **cross-functional collaboration**, partner / vendor onboarding & coordination, customer onboarding & customer success, growth strategy & growth experiments, B2B partnerships & business development, sales & marketing fundamentals, KPI tracking & reporting, presentations & pitch decks, founder's-office / strategic initiatives, business analysis (BRDs, process flows)
- **Consulting & Founder's Office:** management consulting, structured problem solving & case frameworks, market research & competitive benchmarking, pricing & financial modelling, go-to-market (GTM) strategy, **client & stakeholder engagement**, executive communication & presentations, **strategic initiatives**, chief-of-staff style execution, high agency & ownership
- **Tools:** Notion, HubSpot / CRM, Slack, Google Workspace / Microsoft Office (PowerPoint, Word)

INTERESTS

- AI, AGENTIC AI & Automation
- BUILDING INNOVATIVE Stuff- BOTH SOFTWARE & HARDWARE-[BUILT-SANITISING BAG DURING COVID, RECOGNISED IN NEWSPAPER- CLICK TO SEE newspaper RECOGNITION, RC PLANE, DRIFT KART]
- Sports, Music- Playing all instruments, Singing
- ENTREPRENEURSHIP, RESEARCH, Problem solving

BITS PILANI CONSULTING CLUB – Senior Associate

📅 Apr 2026 – Present

- **Live client consulting projects:** market research, competitive analysis & benchmarking, pricing & financial models, and **go-to-market (GTM) strategy** recommendations for real businesses
- **Case solving & case competitions** – structured **problem solving**, business frameworks & **strategy presentations** (club's national flagship case competition: **CaseQuesta**)
- **Client outreach & project pitching**, industry research publications (India Insights, case studies) & **stakeholder communication**
- **Skills:** Consulting, Strategy, Market Research, Business Analysis, GTM, Financial Modeling, Presentations & Pitch Decks

VISION – AI-powered COMPUTER VISION system for "INDUSTRIAL OPERATIONS" & "Impaired individuals"

📺 [Click to view the Software video]

- **Deep Learning & CV:** AI-DRIVEN, real-time Human-Computer Interaction (HCI) software using Python, OpenCV & MediaPipe face tracking that **turns facial expressions into system commands**.
- **Optimized to run in real time on standard webcams with minimal frame latency** – no special hardware needed
- **Use Case – Digitization & Safety Automation in Heavy Industrial Zones:** Floor operator holding heavy equipment, can use **facial movements to toggle communication** & adjust device display brightness **without lifting a finger**
- **Use case – Touchless interface for the Impaired:** lets them control education, communication & digital media **hands-free through simple facial movements (like blinking or moving the head)**
- **Multi-Modal Speech Integration (TTS):** Expanding into multi-modal assistant by integrating Text-to-Speech (TTS) to provide hands-free system alerts & control
- **Tech Stack:** Python, OpenCV, MediaPipe, Computer Vision, Deep Learning (pre-trained facial-landmark models), NumPy, real-time inference & latency optimization, Human-Computer Interaction (HCI)

RETREAT & REBOUNCE - Founder [Click here to view]

📅 Creates Interest to Workout & take care of Health Everyday

- **SCALED** widely across BANGALORE, HYDERABAD, JAIPUR - Partnered with Multiple fitness venues
- **Partnerships, pricing & operations:** Sourced and onboarded fitness venues (**vendor / partner management**), designed the pay-as-you-go **pricing & monetization** model, executed **go-to-market** across 3 cities and tracked pass usage, conversion & engagement **KPIs**
- **Flexible Monetization Engine:** Designed and implemented a disruptive "Pay-As-You-Go" single-pass system, successfully bypassing the high cost-barriers of traditional Gym 3-month subscription contracts to improve USER SAVINGS, consumer conversion & financial scalability
- **Tech Stack-** Product Development, Operations, GTM, Growth & Partnerships
